Overview

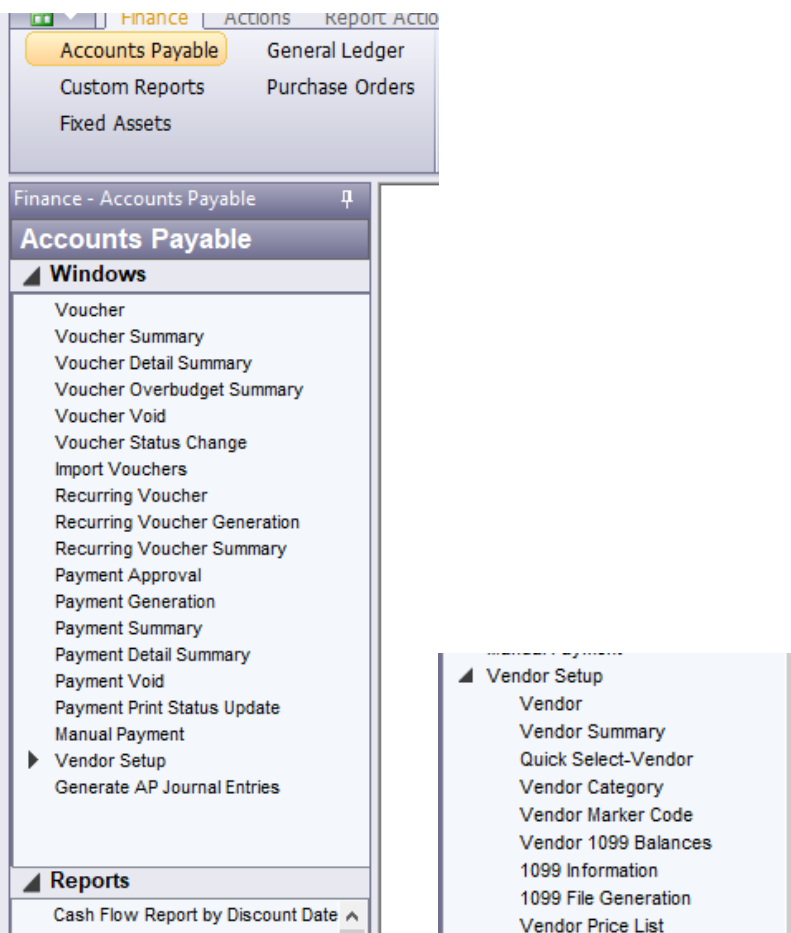

With the 18.3 SMART release in December 2018, the SMART Finance System’s user security access was updated. A user’s security access is mostly based on a User Class being assigned to them. Multiple User Classes can now be assigned to one user. Also, the ability to add or delete windows or processes is easily done. During this update, new User Classes were developed. This document identifies the User Classes available to district users and what is included/excluded with each one.

APCLERK – Accounts Payable Clerk

Overall, this User Class has full access to the Purchase Order menu, Accounts Payable menu, and the Fixed Asset menu. There is limited access under the General Ledger menu and Custom Reports menu.

Accounts Payable Menu

Full access to the Accounts Payable menu by being able to create new, edit, and delete records.
